CHARLES JOHNSON, President
MARJORY JOHNSON, Secretary
Telephone (805) 946-2650

WHERE WAST THOU WHEN I LAID THE FOUNDATIONS OF THE EARTH? DECLARE IT IF THOU HAST UNDERSTANDING. . . . Job 38:4

Science—unopposed—
captures the young
mind, but it cannot
find reasonable purpose
in life to satisfy adult
enquiry.

★

Possibly this is the
Only Voice Raised to
defend young minds
against Godless
indoctrination.

★

The accepted "globite"
teaching destroys full
appreciation of The
Creator's statements
regarding earth's
structure.

★

This is the age of great
technical advancement;
but it is also the age of
great deceptions.

★

You can see the physical
damage due to famine
or warfare, but you
cannot assess the
spiritual or mental
damage either to
yourself or the
defenceless young mind
if the anti-god planet
or globe-earth
indoctrination is allowed
to pass unchallenged!

★

If you are past middle
age, you will never clear
your mind of former
indoctrination, theories
and assumptions. Rather
forget self and join us
in this worthy cause!

★

Help us teach young folk
"To carefully observe—
Think FREELY—
Rediscover forgotten
FACTS and Oppose
theoretical dogmatic
assumptions."

★

We are credited as being
"Almost the last pocket
of individual thought
in Britain!"
And about the last pocket
of individual thought
in America.

Mr Charles Barren
Sicence Fiction Foundation
North East London Polytechnic
Barking Precinct
Longbridge Road
Dagenham Essex RM8 2AS
England

Dear Mr Barren,

I recieved information bulleton no 4 and the other two reports., thank you very much.

I expect I should have mentioned before that I was carrying on the work of Mr Shenton. Not knowing just what you were up to there, prevented me from mentioning this fact.. I still do not know for sure just what it is. I have noted for a number of years here much truth is disguised as S. F. Have espically noted in last few years, S.F. in the form of T.V. movies etc seem to be deeply inbolved in this world power struggle, and to project a fantastic insight into what is happening, British S. F. Tv movies etc, I mean. I know I dont have to mention to you the Society of Jesus, Jesuits are the Max Factor in all. As far as I can tell it is they who have been the main purvayers of the completely insane idea of a round spinning world., of couse in '1984' they clean it up and confess they lied all the while, it is flat. Of course any one of a sane sound mind dosent need anyone to tell him. And of course you there know that it is indeed flat, and not spinning, but I trust you know what you are doing, that in time you will present this fact Sicence IS Fiction!

I cannot come to England, much as I would like too. I love England as much I expect as anyone there. And old saying ' dont sell an Englishman short', very true, it is for this reason I dont castigate you for pretending to believe in the insane globe theory, I trust you are aiming for a 'good cause in the end'? You mention that some of your materel can be loaned out, would you please let me know if and how I can borrow some of Mr Shentons collection? I would not need to keep it long and of course would be very careful withit and return it promptly.. Dont know what to ask for first perhaos no's 9-10-16 In time I would like to examine all the items. And I will of couse put it all to the use Mr Shenton intended. He was one of the Greatest men England has ever produced, a Knight for Truth. Hope to hear soon. Most sincerely

Charles Johnson

Have adven same as before.

TO CARRY RESEARCH INTO GEOPHYSICAL MATTERS IS THE BENEFICIAL EXERCISE DESIGNED BY GOD FOR MANKIND. . . . Eccles 1:13

We are a non-profit making Society relying upon donations freely given.

Lancaster, Cal. 93534

Dear Sir,

For several years I have heard of the Flat Earth Society and have been most interested in contacting them. I found it impossible to locate the address in this country, at last through the British Museum I got the address in Dover. I was saddened to learn from Mrs L.J. Shenton ~~had passed on~~ that Mr Samuel Shenton had passed on in March. She gave me your address and recommended that I write you for information on the subject, of the earth being flat.

I am quite interested in the subject, A number of years ago I read of an experiment with a telescope, from land to a ship at sea that in fact proved it flat! I have done a lot of thinking on the subject and am most interested in learning more about the ideas and information Mr Shenton had on the subject. I would appreciate it greatly if you ~~in response~~ give me some information on the subject.

Sincerely, a seeker of Truth

Charles Johnson
