Dear Sir

Thank you very much
for your most helpful letter
of 16th September.

I was most interested to
hear of your work on the
archives of the Fleet Ench Society
and look forward with interest
to the paper that you intend to

2

publish some time next year.

However I wonder if
in the meantime you could
possibly photocopy just one
of the general pamphlets
to that I and a few
interested friends can examine
the arguments and evidence
proposed by the Flat Earth
Society. We are all industrial
research scientists with ~~a~~ a
purely general interest in the

matter. There is no question
of any of us wanting to
publish anything on the
subject.

I would be most
grateful if you could
help us.

Yours sincerely

C. L. Hicks

58 Erskine Hill,
Polmont,

Dear Mr. Barren,

Thank you very much for the very fascinating parcel of original Flat Earth Society material that arrived safely here today. I am most grateful for your trouble and can assure you that my scientific colleagues and I

2

as the BP Chemicals Research
Division will review them
with interest.

It is already evident, as you
stated earlier, how ingenious
their arguments were and how
religious zeal can distort
logical reasoning!!

Many thanks again - I
will return them to you within
2-3 weeks.

Yours sincerely,

C. L. Hicks

19th Jan 76

Dear Sir,

I am writing to ask if there is a possibility of a member of your society to come and speak to our Jewish Youth club. Our Youth club is for boys and girls between the ages of thirteen and sixteen and we meet on Sundays between 5:30 and nine o'clock. We are very keen to have a speaker

Dear Sirs,

Your startling conviction that the earth
is flat, despite lunar photographs of earth
indicating the contrary, convinces me that
you must have some revolutionary
scientific phenomena up your sleeve. I
would be grateful if you would forward
me written proof.

I enclose a stamped addressed
envelope.

Yours faithfully,

J.G. de Courcy O'Jady.

Dear Sir,

I am a Fine Art Student at the BNSRSL Polytechnic Faculty of Art and Design. I am collecting information for a thesis on Cosmologies. I should like to find out something about the Flat Earth Society, and I understand that you are in possession of their records.

Do you have an information booklet that I could purchase from you? Or can you advise me of a book that might be useful to me?

P.T.O.

Dear Sirs,

I am secretary of the 6th form society of
Sir Roger Manwood's School in Sandwich. I was
hoping that one of your members would be able
to give a talk on the work and beliefs of your
society to us and follow it with a discussion.
We would be quite prepared to meet any
travelling expenses. Trusting that I shall hear
from you soon,

yours faithfully,
John F. Barber

Dear Sir,

We are preparing an English book for junior schools and would very much like to include a picture of the flat earth in map form. Would you please be able to help? If not, could you perhaps put me in touch with some one who may be able to oblige.

Any photographs or prints loaned, would be returned as soon as possible and in the event of publication full acknowledgement given.

I look forward to your reply.

Yours faithfully,

Dear Secretary,

One of our contractors in Dallas, Texas, is most eager to join your Society. (Indeed, he asked my predecessor to help him over a year ago: and I regret to say that nothing was done.)

Would you please send me the appropriate "new member" package, with say 6 application forms, and I will deliver them next month.

Yours faithfully

Dear Sir,

We are preparing an English book for junior schools, and wonder if you may be able to help us, in finding or supplying a flat earth 'map'. This we would like to include in this publication.

Any prints/artwork sent, will of course be returned as soon as possible, and in the event of publication, full acknowledgement will be made.

I look forward to your reply.

Yours faithfully,

Aug 31st 1976.

Dear Sir,

Would it be possible for you to let me have the address of someone in the Leeds area who would be willing to speak to our group of the National Housewives Register about the Flat Earth Research Society and its findings & beliefs.

We are not a large group and meet in our own homes at 8.00pm Mon-Thurs. I am arranging our programme for Jan-April 1977.

I look forward to hearing

from you.

Yours faithfully,
Sandrei Thompson,
Local Organiser for the
Rothwell branch of the
National Housewives Register.

The International Flat Earth
Research Society,
Dagenham.

Dear Sir or Madam,

I have been trying to find
your address for some time and today it
appeared in the "Yorkshire Evening Post."

I am very interested in learning more
about the Society and its work, details of
any publications, leaflets, photographs
etc. I am a member of a local debating
Society and intend to propose at a future
debate "that the earth is flat" — hence my
wish to obtain as much backup information as
possible as well as my general interest.

I look forward to hearing from you.
Yours faithfully, Adrian Drysdale.

12th January, 1976

Dear Sir,

I am writing on behalf of the Sutton Young Conservatives to ask if one of your members would be prepared to address us on the subject of your fascinating organisation.

The date we had in mind was Thursday April 8th at 8.30p.m.. We meet at the Conservative Committee Rooms, 48 Benhill Avenue, Sutton, Surrey.

I look forward to hearing from you.

Yours sincerely,

A handwritten signature in cursive script that reads "Jasmine Hopkins". The signature is written in dark ink and is positioned above the typed name.

International Flat Earth Research Society.

Dear Sir,

We, at school, have come across the
debate of the shape of the world.

I am very interested in your beliefs and your
society. Please could you send me any
information you have to the above address.

Find inclosed an 8½ pence stamp to cover the
postage costs.

Thank-you so much,

Yours Sincerely,

Vanessa Gray.

23rd. November 1971

Dear Sir,

Mrs. Lilian Shenton has informed me that all the papers concerning the Flat Earth Society have been passed on to you, after the death of Mr. Shenton.

I wonder if it would be possible for you to inform me of someone who would be willing to lecture to the Oceanography Society of this university on the subject of the Flat Earth.

I would appreciate a speedy reply.

Yours sincerely,

E. D. Barton

Secretary
Oceanography Society

KENNINGTON BRANCH TOC H
Mark 13,
119 Kennington Park Road,
London S.E.11.

PHONE 735-1005 Home
930-5942 Office

November 16th, 1977

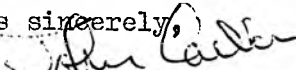

Dear Sir,

Your address has been given to me by the Marylebone Public Library. I hope that this is correct and the letter will reach you. I am writing to ask whether your organization can send us a speaker to talk to the Toc H Branch situated in this residential hostel. We should like a speaker to come on Monday March 30th.

I enclose a copy of our current programme which will give you an idea as to some of the things which take place at our meetings. As you will see our evenings commence at 8 p.m. and we like a speaker to talk for an hour and twenty minutes including questions and discussion. Any speaker will be most welcome to come to dinner with us on the evening of the talk. Dinner is at 6 p.m.

I should be glad if you could let me know as soon as possible whether you could send a speaker as I hope to be able to send the new programme to the printers by the end of November. If you are able to send a speaker could you at the same let me know what title you would like to appear on the programme for the talk.

Yours sincerely,

JOHN CARLTON

Programme Secretary
