Main observations Russia's Space Events

Russians have never given evidence of secret
Bleeps could come from ground stations
ordinary plane vapour trail shown Russian
people, animated toys in market place (T.V.)
We are told that the first sputnik carrier
had 'leap-frogged' satellite and got in front.
(How did they know? from 'dead' satellite?)

We were never told how Gagarin landed -

- (1) He came down by parachute
- (2) That he had landed the 'ship' in a cornfield
- (3) At predetermined place.

Richard Dimbleby reviewing on T.V. showed a
momentary "flash" of an airmen struggling with
an open parachute. Dimbleby indicated
his doubt that such film was actual
landing - How was it camera was there on spot?
photos of interior of capsule appeared
poorly equipped compared with Gloris,
when Khrushchev toured both America + France
he carried models, momentos etc: made
BEFORE events happened.

On occasion of great parade in Red Square
- when world expected to see the sputnik
paraded - all that happened was the
exhibition of a rubber balloon model from
which came a number of children carrying ~~tiny~~
bouquets!

Ed: John Powers of the N.A.S.A. early on wanted
to know the Russian descent timing - Not given -
Latest exploits by Belyayev + Leonov in "Space"
Suggest that the photo's showed fins or tail
of plane also camera must have been BLOWN
astronaut said well back! (Re-examination wanted)

Is it possible that supposed landing 900
miles North was occasioned because of U.S.
infiltration of known press + State Representatives

Again the men appear just like Gagarin
and others from supposed manual landing

men landing (as Glenn etc) are slowed down by retro jets & parachutes therefore coming down would have been much lower than the 18,000 ft of the ascent.

Yet Russians give out that the aerial of the "strip" was burnt off because of reentry re-entry into lower atmosphere!

Suggest the theme of burning up.
needs Re-thinking.

That the earth is stationary is evident, because Sputnik travelling at only 4-5 M.P.S. goes against the supposed orbital speed of Earth 20 M.P.S. See would leave Sputnik behind.

No thoughts or theories of earth's gravitation should be countenanced; because at 170 miles up and Leonov's "walk-out" (?) it is evident that any supposed pull of gravitation was abrogate - they were free in space. Should not this matter of orbital speed and Russians descent after "walk-out" be re-investigated?

As against the accuracy of the Russians we have the 'open' coverage given by the U.S.

A thought which has bothered me from the very first is that any material released by Russia has been open to doubt (as the supposed moon photos of the reverse side) the resultant press photo - I understand - was blown-up to 8' sq by the Home Office and the opinion was that it was nothing more than a charcoal drawing!

I tend to think that these men the Russian Astronauts, are highly hypnotised and really believe they have done each venture in space

Leonov's photo could have been taken in air pressure tank or room during so-called training!

Aeronauts / Astronauts

Reproduced photographs (sometimes the result of hundreds of portions of negatives. These segments skilfully arranged, are actually photos of the "fan shaped sector" of the horizon as seen seen years ago from Balloons!) These modern photos, which deceive the public into thinking them proof of a globular earth, are taken "with" wide vision lenses" and from moving vehicle (Rocket, Missile, or ^{U.S.} Space Capsule) Americans about a year ago stated that they were hoping to devise Lenses which would NOT distort the horizon!

The American "open skies surveillance" project of a year or two ago, (n. 2's) built a wonderful camera which could flash through 180 degs. The resultant photos, at ~~any~~ height, showed land or water ~~the~~ horizon at each end of the film strip!

As ballonist, so modern aircraft or orbiting capsules, all are still earth bounded.

Not flying above a fast speeding globe which would yield photos looking down ~~over~~ upon a falling-away horizon!

Col: John Powers of the NASA organization of America, required, when first ~~space~~ capsule was put up by Russians, to know the descent timing. Each capsule travelling thousands of miles per hour slower than the earth is supposed to ~~do~~ on Orbit, are in descending, slowed-up over a period of time, yet the Earth is still there to receive descending Astronauts!

Gravitation

as recently as May 4th 1963 in the Daily Express (London) it was reported that a new theory formulated by Sir Edward Bullard and Dr Tuzo Wilson that once in the past the land mass had been one great continent which had "somehow" broken up, the parts, as we recognise them today, slowly drifting apart! Continental Drift is the old story. But they, the Professors, are here faced with a great difficulty. To allow for "break-up" and "drift" of the vast original continent they must disallow the supposed "law" of gravitation else no movement of land mass would be possible! So, speaking of the great depths now being explored in the ocean-bed, they introduce this:- "And in the trenches some force Greater than Gravity is pulling down the Sea-bed!"

Eclipses

As noted in my letter, my individual study of the Solar eclipse Shadow Track of 1954 June 30, shows many points in the orthodox theory which show great inconsistency.

Lunar Eclipses

I have found very helpful matter in French Bulletins of the French Astronomical Society. Photo for Lunar Eclipse 12/14 May 1957. This shows clearly that the "so-called" earth shadow, comes in on the wrong side of the moon! Orthodox again wrong.

Biblical Cosmology

I have yet to find a man who, having entered upon a study related to the earth and its figure & construction, has not had to reasonably admit to the design and control of The CREATOR.

Those concerned with theories & speculative astronomy--men of my thoughts--are strongly opposed to anything related to a CREATOR.

It is inconceivable that inanimate brute matter should, without the mediation of something else which is not material, operate upon an affect other matter without ~~material~~ mutual contact, as it must be if gravitation, in the sense of Epicurus, be essential and inherent in it. That gravity should be innate, inherent, and essential to matter, so that one body may act upon another at a distance through a vacuum, without the mediation of anything else, by and through which their actions and forces may be conveyed from one to another, is to me so great an absurdity that I believe no man who has in philosophical matter a competent faculty of thinking can ever fall into it. Gravity must be caused by an agent acting constantly according to certain laws, but whether this agent be material or immaterial I have left to the consideration of my readers.
